- *THE BEST ATTORNEYS' OFFICE* by the Kazakhstan Union of Attorneys

FAMILY LAW

Sayat Zholshy & Partners has a team of dexterous counsellors and skilled advocates specialising in family law issues. We have been leading this feature segment of the Kazakhstan legal services market for years.

Over the years, we have succeeded in advising and supporting our Clients (including a number of VIPs) with regard to such issues as international marriage; distribution of marital property; determination of the place of residence for underage children, the procedure for their communication with a separated parent and the procedure for their upbringing and support; and, of course, divorce. The SZP Family Law team handles many cases complicated by foreign citizen involvement, including, but not limited to, the cases for division of marital property located outside Kazakhstan across multiple jurisdictions, headline-making and high-profile cases under public scrutiny, and dealing with mass media that require specific knowledge, skills and expertise. Confidentiality is our top priority.

The Firm's Family Law practice is supervised by Partner Dmitriy Chumakov whose team consists of seven highly experienced lawyers capable of ensuring an effective defence of Client's interests. The team's clientele includes foreign nationals, famous celebrities, politicians, businessmen and other public figures.

During many years of hard work the SZP portfolio has been extended by a number of sensational divorce cases. Dmitriy's team specialises in headline-making and high-profile cases under public scrutiny. Over the time, the team worked out their own techniques for dealing with mass media and safeguarding our Clients' right to personal and family privacy.

Our lawyers and attorneys have developed and tested unique approaches at the confluence of psychology and law to resolving the most challenging marital and child custody disputes. Our team knows perfectly well that successful development of the Family Law practice to a large extent depends on the improvement of applicable laws and regulations. Therefore, Dmitriy Chumakov takes an active part in, and makes an invaluable contribution to, all the discussions concerning the improvement of Kazakhstan law on a regular basis.

OUR SERVICES
